

ESHTHA BANGA

SOFTWARE DEVELOPER

 eshthabanga@gmail.com  Gurgaon, Haryana  [Portfolio](#)  [LinkedIn](#)  [Github](#)

PROFILE

B.Tech CSE (AI/ML) candidate and **Software Development Intern** with expertise in Python, machine learning, and web technologies. Experienced in the full project lifecycle, from algorithmic design to deployment. Strong background in solving technical problems through data-driven solutions and collaborative development.

EXPERIENCE

Thrylos, *Technical Team Member* 01/2026 – Present

Tech TribeX, *Technical Team Member* 09/2025 – Present

EDUCATION

B.Tech CSE AIML, *KR MANGALAM UNIVERSITY, GURGAON* 2025 – Present

Class XII, *BS INT SCHOOL, WEST DELHI* 2024 – 2025

SKILLS

Programming Languages

Python, C++, JavaScript, SQL, TypeScript, Node.js, RESTful APIs

Data Science & AI

Generative AI, Pandas, NumPy, MySQL, MongoDB

Web Development

React.js, HTML, CSS, Tailwind CSS

Tools & Others

Git, Blockchain Concepts, UI/UX Design

PROJECTS

Question Forge AI, *Python, GenAI, Web Frameworks*

- Engineered an automated academic assessment tool utilizing Generative AI and Bloom's Taxonomy to generate balanced question papers.
- Developed backend architecture with Python, integrating LLMs to dynamically process and scale educational parameters.

Blockademia, *React.js, Tailwind CSS, Blockchain Concepts*

- Co-developed a reward-based learning platform enabling users to complete courses and earn tokenized rewards.
- Engineered the frontend architecture using React.js and Tailwind CSS, ensuring a responsive and aesthetic user interface.

End Sem Slayer, *Web Technologies, Database Management*

- Developed a dedicated exam preparation platform featuring interactive study planners and dynamic quizzes. Designed state management and data flows to securely track and update student productivity metrics in real-time.
